Beneficial phyto-chemical compounds in Rosemary

Carnosic acid

Rosemarinic acid

Ursolic acid

Rosemary extract standardized to Carnosic acid or Rosemarinic acid is well-known natural antioxidant/preservative. It's widely used in meat products, edible oils, food, aquaculture, cosmetics, personal care products, etc.

More health benefits:

Many recent scientific studies have been conducted on Rosemary extracts, more and more health properties have been discovered/confirmed.

- **Carnosic acid**
 - ✓ Cognition support: promote nerve growth factor, improve memory and relief Alzheimer syndrome
 - ✓ Liver protection: cirrhosis inhibition
 - ✓ Anti-diabetic and metabolism syndrome relief
 - ✓ Antiviral and anti-inflammatory
 - ✓ Antidepressant
- **Rosemarinic acid**
 - ✓ Gout and arthrolithiasis relief: competitive inhibition to xanthine and xanthine oxidase, therefore reduce uric acid
 - ✓ Anti-inflammatory and immunity support
 - ✓ Antibacterial and antiviral
 - ✓ Cardiovascular health: anti-angiogenesis, platelet aggregation inhibitory
 - ✓ Antitumor: tumor cell growth inhibition and apoptosis
- **Ursolic acid**
 - ✓ Muscle strengthen: prevent muscle atrophy, promoting muscle growth
 - ✓ Hypolipidemic and antiatherogenic
 - ✓ Liver protection: hepatocyte viability enhancement, anticholestasis

Available products:

- ✓ Rosemary Extract Powder, 10~90% Carnosic acid, oil soluble
- ✓ Rosemary Extract Powder, 5~90% Rosemarinic acid, water soluble
- ✓ Rosemary Extract Powder, 25~90% Ursolic acid, oil soluble

Decolorized, deodorized
